

## Mosquito Recording Scheme - data form

Please complete the following form and send this along with any mosquitoes collected to the address provided.

<b>Person submitting data</b>	
Name of person submitting mosquito(es)	
Company name	
Address	
Telephone number	
Email address	
<b>Location of collection</b>	
Date of collection	
Specific location of collection (grid reference if possible)	
General location of collection (nearest village/town/city)	
Local habitat (deciduous woodland, coniferous woodland, pasture)	
Any further information/notes	

1. If more than 1 mosquito is collected from different habitats or locations, they should be placed in separate labelled containers.
2. If more than 1 mosquito is collected from the same habitat on the same day, they may be sent in 1 container.
3. Live mosquitoes should be placed in a container and put in the freezer for 10 minutes in order to kill them.
4. They should then be sent as soon as possible to the address below, together with the completed reporting form.
5. Please send any mosquitoes collected in a crush-proof, plastic container (eg an old camera film case, or alternatively plastic vials can be supplied on request to the address or email below).
6. All specimens sent will be identified and we will reply by email.

Please send mosquitoes to:
